Lot Summary

SKU	DESCRIPTION	QTY	UNIT PRICE
3JG37ES#ABU	HP t530 Thin Client — sealed, new, Win 10 IoT, kbd/mouse/PSU	97	~GBP 15.46
	Trade lot total (ex-VAT)	97	GBP 1,500

Pricing

Whole lot: GBP 1,500 (ex-VAT) for all 97 units — a clearance price averaging about GBP 15.46 per unit, for a swift single-buyer acquisition. All supply is ex-VAT; UK supply is subject to VAT at the standard rate (20%) — e.g. lot total GBP 1,500 + GBP 300 VAT = GBP 1,800, reclaimable as input tax by VAT-registered buyers. Export sales (goods removed from the UK) may be zero-rated subject to valid evidence of export. A full VAT invoice carrying the VAT amount and seller VAT number (GB 506426996) is issued on sale. Comparable sealed-new HP t530 units list at GBP 90–150 each on UK trade channels — the lot leaves clear margin headroom for onward corporate, B2B or retail resale.

Application & Deployment

The t530 is HP's enterprise thin client for cloud-computing and virtual desktop infrastructure (VDI) workloads — Citrix Workspace, VMware Horizon, Microsoft RDS, AWS WorkSpaces endpoints. Brand-new, manufacturer-sealed kits with all peripherals (keyboard, mouse, power brick) are ready for immediate deployment or resale with zero testing, cleaning, or configuration labour. Well suited to call centres, schools, healthcare, retail POS, or the low-power homelab market.

Stock Photography

Single unit — HP t530, manufacturer-sealed retail box (box-label photo evidence).

Palletised lot in situ — ex-warehouse Leicester, UK.

Verification & Terms

Release status: warehouse release formalities in progress — enquiries and collection planning welcome now; firm dispatch confirmed on release.

Verification pack: high-resolution photographic evidence of manufacturer box labels and the warehouse condition report available on request to confirm stock status and facilitate logistics planning. Desk-based documentary evidence, not an independent third-party audit.

Collection: ex-warehouse Leicester, UK — buyer collects or arranges own freight; title and risk pass on dispatch.

Buyer due diligence: buyer verifies suitability and resale legality in their jurisdiction. Sale 'as is' — no warranty as to condition or completeness of any unit.
